DETAILED ACTION

Note: This is in response to an Amendment filed 04/21/2006.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 1-32 are rejected under 35 U.S.C. 102(e) as being anticipated by Blake III (U.S. 5,192,294).

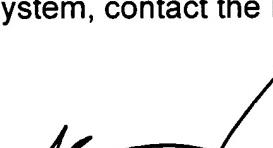

Blake, III discloses the claimed invention in figures 2, 3, and 8-11, an apparatus for creating an opening in a tissue vessel including a piercing element (7) movable relative to a hollow tissue trap member (6), wherein a cutting edge (61) formed on distal end of said hollow tissue trap member (6) for cutting tissue; an introducer (1) located substantially around a least part of said hollow tissue trap member (18) at proximal (21) of said hollow tissue trap member (6); wherein said piercing element (7) and said hollow tissue trap member (6) are movable relative to said introducer (1); furthermore, at least one locking element (4) configured to releasably lock the hollow tissue trap member (6) relative to the introducer (1), wherein the locking element can be a cam element (4), a tab, a pin (9) or a collar; and the piercing element (7) at least partly or fully from the device.

Response to Arguments

2. Applicant's arguments, see remarks, filed 04/21/2006, with respect to the rejection(s) of claim(s) 1, 11, and 16 under 102 (e) have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Blake III.
